KANSAS LEGISLATIVE INSIGHTS NEWSLETTER | FEBRUARY 14, 2020

WEEK FIVE OVERVIEW

Uncertainty marked week five of the 2020 Kansas Legislature. Last Friday, the House of Representatives was unable to muster the 84 votes necessary to place the abortion constitutional amendment on the August primary election ballot. Senate President Susan Wagle expressed her disappointment and frustration by saying that Medicaid expansion will not be considered in the Senate until the abortion issue is resolved. This week, the Senate Public Health and Welfare Committee delayed consideration of the Medicaid expansion proposal. The result is uncertainty relative to whether any health-related legislation will be considered this session.

House and Senate budget subcommittees have been grinding through the state budget with early-morning and lunch-hour work sessions. On Monday, the House Financial Institutions and Insurance Committee sent, without recommendation, the governor's bill to reamortize KPERS outstanding unfunded liability.

House and Senate committees heard a wide range of issues ranging from banning the sale of unpasteurized milk to raising the minimum age to possess tobacco products to 21 and banning vending-machine sales of cigarettes and flavored vaping products. Sports gaming is also under consideration. The Senate Agriculture and Natural Resources Committee held hearings on SB 300, prohibiting the sale of unpasteurized milk for human consumption and SB 308, allowing the on-farm retail sale of raw unpasteurized milk so long as certain labeling and advertising requirements are met. The House Education Committee heard testimony on childhood immunizations. The Senate Education Committee heard an update from the Dyslexia Task Force and held a hearing on SB 336, creating the Kansas Reinvest in Postsecondary Education Act.

GOVERNOR'S EROS

This week, House Committees rejected two of Governor Kelly's Executive Reorganization Orders (EROs), which were to be effective July 1 without legislative action. On Tuesday, the House Appropriations Committee rejected the ERO combining three departments into the Kansas Department of Health and Human Services. The House Energy, Utilities, and Telecommunications Committee passed to the full House its opposition to the ERO moving the Kansas Energy Office out of the KCC into a separate agency.

On Thursday, the House General Government Budget Committee approved Gov. Laura Kelly's Executive Reorganization Order that moves the administration of the State Employee Health Plan and the State Self-Insurance Fund under the Department of Administration. The concept was recommended by a 2016 efficiency study by consulting firm Alvarez and Marsal.

TAX UPDATE

On Wednesday, the House Tax Committee passed two tax-cut bills. HB 2005 would allow individuals to itemize deductions in Kansas despite not itemizing on their federal return. The Committee further amended the bill to be effective in 2020. The House Tax Committee also approved HB 2538, increasing the standard deductions for individuals, joint filers, and heads of household that we described in last week's issue.

MAJOR DEADLINES

Today (Friday, Feb. 14) is the last day for non-exempt committee bill introductions. Wednesday, Feb. 12, was the deadline for individual bills by legislators. The result is a glut of new bills which cause eye strain as various associations, lobbyists, lawmakers, and other legislative interests delve into the details of each piece of proposed legislation.
