PRIVACY IMPLEMENTATION KANDBOOK FOR HEALTHCARE PROVIDERS

On Jan. 17, 2013 the United States Department of Health and Human Services (HHS) issued the long awaited HIPAA MegaRule (also referred to as the Final Rule), which modifies the HIPAA Privacy, Security, Enforcement, and Breach Notification Rules in accordance with the Health Information Technology for Economic and Clinical Health (HITECH) Act. Foulston Siefkin attorneys have developed a comprehensive HIPAA Privacy Implementation Handbook, which includes the necessary modifications to comply with the MegaRule. The HIPAA Privacy Implementation Handbook is a digital download that contains sample policies and procedures as well as sample notices, forms, and other tools, including, among others, a Notice of Privacy Practices, a Business Associate Agreement, authorizations, breach notification forms, and a privacy complaint log in a Microsoft Word format. Let Foulston Siefkin assist your organization with MegaRule compliance.
